Freeform blends Uniform Slim, Uniform Span and Uniform Wide into a 12-baffle system up to 6.7" (170mm) deep. Delivers subtle variation, texture, and high acoustic performance.

## Description

Zintra Box Baffles Systems are prefabricated, ceiling-mounted systems that bring rhythm, dimension, and high-performance acoustics to any space. Suspended in perfectly spaced rows, the box-shaped design not only looks substantial but also improves sound absorption, capturing noise within and increasing the NRC rating. Lightweight, modular, and scalable, these systems are easy to assemble, easy to install, and a visually striking alternative to traditional mineral fibre ceilings.

Uniform Slim Box Baffle Systems

Blending Uniform Slim, Uniform Wide, and Uniform Span into a system of 12 baffles, reaching depths of up to 6.7" (170mm). The variation in profiles introduces texture and depth, delivering a versatile design that feels cohesive yet visually engaging.

Available in two sizes, 39" (1000mm) w x 94.5" (2400mm) d and 93" (2362mm) w x 94.5" (2400mm) d, Slim is ideal for projects that call for subtle impact with strong acoustic performance.

Design Options

Choose from uniform or mixed Box Baffle Systems to suit your design vision. Uniform Slim, Wide, Span, and Grand offer clean, linear profiles, while Freeform layers Slim, Wide, and Span for subtle variation. Fusion combines all four sizes for bold, architectural statements.

With a wide array of designs, Zintra Box Baffles are ideal for large, noisy spaces such as educational institutions, shopping centres, restaurants, and airports, where performance meets aesthetic appeal.

## How to Specify

1. Space Size

2. Layout Of Baffles Within Space

3. Baffle Depth

4. Installation | System or Set | 5. Hardware

6. Select Connection Method

7. Select Colour

## Dimensions

1000 mm (39") w x 2400mm (94.5") d x 170mm (6.7") h

2362mm (93") w x 2400mm (94.5") d x 170mm (6.7") h
