## Description

Furniture has a natural attraction to Affinity. The digitally printed silicone hybrid provides a comfortable edginess that cultivates energy. Affinity is created using a unique technology, combining silicone on the topcoat, layered over a polyurethane base to produce a product that has outstanding durability and gorgeous design. In addition, Affinity is transfer printed and then embossed, in order to add another layer of interest and depth. Drawing attention to the details and boasts an abrasion resistance of over 200,000 double rubs and is inherently Graffiti-Free® for all high-traffic interiors. Offered in eight multicoloured colourways – such as Dandelion yellow, Oceanside teal, and Woodchip neutral, Affinity harmoniously balances durability and design.
