JAPANESE

CLEAS Japanese features patterns and textures inspired by traditional Japanese art and architecture, adding a touch of cultural sophistication to your interiors.

Description

CLEAS Japanese draws on traditional Japanese art and architectural influences to introduce a refined, cultural aesthetic to glazed surfaces. The collection brings a sense of balance and visual harmony to interior spaces, making it well suited to environments where subtle decorative detail is desired without compromising light or openness.

Manufactured using high-transparency polyester film, it delivers excellent optical clarity for a clear external view, while also helping to block up to 97% of infrared heat for improved interior comfort. Durable and versatile, CLEAS Japanese is ideal for residential, commercial and hospitality applications, offering a sophisticated way to enhance windows, doors and glazed partitions.

Composition

High-clarity polyester (PET) film with functional coating, and durable scratch-resistant finish

Pattern Repeat Size

Various. See Technical Documents for details.

Roll Size

Various. See Technical Documents for details.

Lead Time

- 2-weeks (approx.) from Wednesday, subject to stock availability.
- Additional 1-week for Western Australia.
- Express delivery is available subject to a surcharge. Contact Baresque for details and pricing.

Care Instructions

Clean using a soft cloth or rubber squeegee with clean, warm water.

For more persistent soiling, use a mild neutral detergent diluted to 1–2% with water. Gently wipe the surface in a single direction, then rinse thoroughly with clean water to remove any residue.

Do not scrub back and forth, as this may damage the surface.

Do not dry-wipe, as this may cause fine scratches.

Avoid leaving dirt or debris on the surface, as this may accelerate wear. Regular cleaning is recommended to maintain appearance and performance.

Do not use ammonia-based cleaners, chlorine-based cleaners, organic solvents, or abrasive cleaning agents.

Do not apply stickers, tape, or labels to the surface, and avoid writing on the material. Prevent any actions that may scratch or damage the film.
