| Description         | <p>CLEAS Stained Glass films recreate the rich colours and intricate designs of traditional stained glass, bringing timeless character to modern interiors.</p> <p>Manufactured using high-transparency polyester film, they provide exceptional optical clarity while helping to block up to 97% of infrared heat for improved interior comfort. Suitable for residential, commercial and hospitality applications, these decorative films transform windows, doors and glazed partitions into elegant design features, offering a durable and practical alternative to traditional stained glass.</p>                                                                                                                                                                                                                                                 |
| Composition         | High-clarity polyester (PET) film with functional coating, and durable scratch-resistant finish                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |

| Care Instructions   | <p>Clean using a soft cloth or rubber squeegee with clean, warm water.</p> <p>For more persistent soiling, use a mild neutral detergent diluted to 1–2% with water. Gently wipe the surface in a single direction, then rinse thoroughly with clean water to remove any residue.</p> <p>Do not scrub back and forth, as this may damage the surface.</p> <p>Do not dry-wipe, as this may cause fine scratches.</p> <p>Avoid leaving dirt or debris on the surface, as this may accelerate wear. Regular cleaning is recommended to maintain appearance and performance.</p> <p>Do not use ammonia-based cleaners, chlorine-based cleaners, organic solvents, or abrasive cleaning agents.</p> <p>Do not apply stickers, tape, or labels to the surface, and avoid writing on the material. Prevent any actions that may scratch or damage the film.</p> |
| Warranty            | 2-year warranty.
