Description	Snake designs are sliding through this new wallcovering collection from Omexco. Cork features strongly with a reptile design, a semi-plain and a faded square motif. Embracing the earthly tones of the brown tiger snake, white python, stained cobra and more, many of the designs are enhanced with a shimmer of gold, silver or copper, mimicking sunlight shimmering off reptile skin.

Suggested Installation	Reverse hang alternate drops / butt join. Cork needs to be installed with care. To remove irregularities glue loose parts onto the backing with a small amount of non-staining cellulose adhesive. Baresque recommends and supply Roman brand adhesives and primers.

Care Instructions	Always use a clean, white, soft cloth. Remove liquid stains immediately using a dry cloth. Avoid hard scrubbing. For tougher stains, dampen the cloth with warm water or a weak dilution of liquid detergent and apply being careful not to soak the material. Always work towards the centre of the stain so as to avoid further spreading. Remove any detergent with a clean, damp cloth. Gently pat dry. Always test in an inconspicuous area first.
Warranty	2-year warranty. Visit **baresque.com.au/warranty** for complete details.
Additional Comments	Search Cobra to find other designs in this collection. Some slight "lifting" of the cork is an inherent and unavoidable characteristic of this product. Loose parts may be glued onto the backing with a little bit of non-staining cellulose adhesive.
