ELDORADO

Eldorado is a 137cm wide coated fabric anti-bacterial, stain resistant and easily clean with a dry towel. available in 13 colours

✓ **Bleach Cleanable** ✓ **Moisture Barrier** ✓ **Anti-Bacterial**

Composition	Phthalate free vinyl, 65% polyester/35% cotton backing
Environmental Info	PVC/Phthalates free No added fire retardant Healthier Hospitals compliant
Pattern Repeat Size	N/A
Roll Size	137cm x Approx 45m - 55m - Available by the lineal metre
Abrasion	100,000 + double rubs Wyzenbeek
Fire Rating	This product can be treated with a fire retardant that will ensure it meets Australian Standard 1530.3. Contact Baresque for details.
Lead Time	• 2-weeks (approx.) from Wednesday, subject to stock availability. • Additional 1-week for Western Australia. • Express delivery is available subject to a surcharge. Contact Baresque for details and pricing.

ELDORADO

Care Instructions

MAINTENANCE

Removal of dust and stains will keep your upholstery looking good and performing well for years.

Any stains should be addressed promptly since, the longer the stain remains, the more difficult it will be to remove and untreated stains may become permanent. For very large or difficult stains, we recommend that you contact a reputable, professional upholstery cleaning

company.

REMOVAL OF STAINS

The type of stain you are trying to remove will dictate the type of cleaner to be used. Water-based stains should be removed with water-based cleaners. Oil-based stains should be removed with a water-free, dry cleaning solvent. A water/bleach solution can also

be used for more challenging stains.

If the stain is wet, gently blot away any extra fluid that might remain on the fabric. If a stain still remains and additional cleaning is required, a cleaner can be applied lightly to a soft cloth and gently worked into the stained area.

The cleaner can then be wiped away using a damp cloth. Use clean water to rinse away any remaining cleaning solution. We recommend cleaning of stains with a light application of the cleaning solution. The process can be repeated if additional cleaning is required.

Avoid heavy application of cleaning agents and saturation of the fabric as this can cause damage and leave marks.

If the stain is dry, a soft bristle brush can be used to gently remove any remaining accumulated matter. Any loose material can then be vacuumed away and, if a stain remains, cleaning can then be performed as described above.

If a stain cannot be removed by these methods, a solution of 10 parts water to 1 part bleach can be used. Never use full strength bleach.

Apply the solution to the stained area and allow it to linger on the fabric for approximately 15 minutes. The bleach solution must be thoroughly rinsed away with clean water and dried using a soft towel. Be sure to remove all bleach solution as any that is allowed to remain may damage the fabric and shorten the life of the product.

Any cleaning agent should always be tested on an area of the piece that is not readily visible before being applied to the stained area.

Warranty

2-year warranty. Visit **baresque.com.au/warranty** for complete details.
