Description	Swinging between warm and cold atmospheres but always creating a very contemporary look, Antares is the latest collection of cork from Omexco. Suggested Installation	Non-reverse hang / butt join. Cork needs to be installed with care using a rubber roller (not a brush or a plastic pallet) so that loose corners/edges remain limited, even and barely visible. To remove irregularities glue loose parts onto the backing with a small amount of non-staining cellulose adhesive. Baresque recommends and supply Roman brand adhesives and primers.

Care Instructions	Always use a clean, white, soft cloth. Remove liquid stains immediately using a dry cloth. Avoid hard scrubbing. For tougher stains, dampen the cloth with warm water or a weak dilution of liquid detergent and apply being careful not to soak the material. Always work towards the centre of the stain so as to avoid further spreading. Remove any detergent with a clean, damp cloth. Gently pat dry. Always test in an inconspicuous area first.
Warranty	2-year warranty. Visit **baresque.com.au/warranty** for complete details.
Additional Comments	Some slight "lifting" of the cork is an inherent and unavoidable characteristic of this product. Loose parts may be glued onto the backing with a little bit of non-staining cellulose adhesive.
