Wallcoverings » Architectural Film

CLEAS Playful Gradation adds a dynamic touch to glass surfaces with smooth gradient transitions. Designed to enhance privacy while maintaining natural light flow, this stylish film creates a modern and visually engaging atmosphere.

Description	CLEAS Playful Gradation introduces a soft, contemporary visual effect through seamless tonal transitions across glass surfaces, adding depth and movement without overwhelming the space. It is designed to provide a sense of privacy while still preserving natural daylight, making it well suited to modern commercial and interior environments. Manufactured using high-transparency polyester film, it ensures excellent optical clarity and a clear outward view, while also helping to block up to 97% of infrared heat for improved thermal comfort. Durable and versatile, CLEAS Playful Gradation is ideal for residential, retail, hospitality and office applications where both performance and subtle decorative impact are required.
Composition	High-clarity polyester (PET) film with functional coating, and durable scratch-resistant finish
Pattern Repeat Size	Various. See Glass Film Product Specification Download for details
Roll Size	Various. See Glass Film Product Specification Download for details.
Lead Time	• 2-weeks (approx.) from Wednesday, subject to stock availability. • Additional 1-week for Western Australia. • Express delivery is available subject to a surcharge. Contact Baresque for details and pricing.
Care Instructions	Clean using a soft cloth or rubber squeegee with clean, warm water. For more persistent soiling, use a mild neutral detergent diluted to 1–2% with water. Gently wipe the surface in a single direction, then rinse thoroughly with clean water to remove any residue. Do not scrub back and forth, as this may damage the surface. Do not dry-wipe, as this may cause fine scratches. Avoid leaving dirt or debris on the surface, as this may accelerate wear. Regular cleaning is recommended to maintain appearance and performance. Do not use ammonia-based cleaners, chlorine-based cleaners, organic solvents, or abrasive cleaning agents. Do not apply stickers, tape, or labels to the surface, and avoid writing on the material. Prevent any actions that may scratch or damage the film.
