MATTE FROST WHITE PEARL

CLEAS White Pearl Matte Frost provides enhanced privacy with a soft frosted finish that diffuses visibility while allowing approximately 40% visible light transmission for a bright, comfortable atmosphere.

Description

CLEAS White Pearl Matte Frost provides a soft, translucent finish that enhances privacy by diffusing visibility while allowing natural light to pass through. With approximately 40% visible light transmission, it helps maintain a bright and inviting atmosphere while reducing glare for improved interior comfort.

Manufactured using high-transparency polyester film, it delivers excellent optical clarity for a clear external view, while also helping to block up to 97% of infrared heat. Suitable for residential, commercial and hospitality applications, it offers a durable and refined solution for enhancing windows, doors and glazed partitions.

Care Instructions

Clean using a soft cloth or rubber squeegee with clean, warm water.

For more persistent soiling, use a mild neutral detergent diluted to 1–2% with water. Gently wipe the surface in a single direction, then rinse thoroughly with clean water to remove any residue.

Do not scrub back and forth, as this may damage the surface.

Do not dry-wipe, as this may cause fine scratches.

Avoid leaving dirt or debris on the surface, as this may accelerate wear. Regular cleaning is recommended to maintain appearance and performance.

Do not use ammonia-based cleaners, chlorine-based cleaners, organic solvents, or abrasive cleaning agents.

Do not apply stickers, tape, or labels to the surface, and avoid writing on the material. Prevent any actions that may scratch or damage the film.

Warranty
