MATTE FROST PILVI

CLEAS Matte Frost Pilvi 70 provides enhanced privacy with a soft matte finish while allowing natural light through, offering UV protection to help reduce heat buildup and preserve interior finishes.

Description

CLEAS Matte Frost Pilvi 70 combines privacy, light control and UV protection to create a refined solution for interior glazing. Its matte finish diffuses visibility while allowing natural light to pass through, helping to maintain bright and comfortable spaces. Designed to help protect interiors from harmful UV rays and reduce heat buildup, it supports the longevity of furnishings and finishes.

Manufactured using high-transparency polyester film, it delivers excellent optical clarity for a clear external view, while also helping to block up to 97% of infrared heat. Suitable for residential, commercial and hospitality applications, it offers a durable and functional solution for windows, doors and glazed partitions.

Composition

High-clarity polyester (PET) film with functional coating, and durable scratch-resistant finish

Pattern Repeat Size

N/A

Roll Size

Various. See Technical Documents for details.

Lead Time

- 2-weeks (approx.) from Wednesday, subject to stock availability.
- Additional 1-week for Western Australia.
- Express delivery is available subject to a surcharge. Contact Baresque for details and pricing.

Care Instructions

Clean using a soft cloth or rubber squeegee with clean, warm water.

For more persistent soiling, use a mild neutral detergent diluted to 1–2% with water. Gently wipe the surface in a single direction, then rinse thoroughly with clean water to remove any residue.

Do not scrub back and forth, as this may damage the surface.

Do not dry-wipe, as this may cause fine scratches.

Avoid leaving dirt or debris on the surface, as this may accelerate wear. Regular cleaning is recommended to maintain appearance and performance.

Do not use ammonia-based cleaners, chlorine-based cleaners, organic solvents, or abrasive cleaning agents.

Do not apply stickers, tape, or labels to the surface, and avoid writing on the material. Prevent any actions that may scratch or damage the film.
