MATTE FROST FILMY

Matte Frost Filmy GF1892 FILMY 50

MATTE FROST FILMY

CLEAS Matte Frost Filmy features an etched-glass inspired frosted finish that enhances privacy while allowing natural light to flow through, adding a refined aesthetic to glass surfaces.

Description

CLEAS Matte Frost Filmy recreates the refined appearance of etched glass, providing a sophisticated decorative finish while enhancing privacy across glass surfaces. Designed to allow natural light to filter through, it helps maintain bright and open interiors while adding a subtle frosted effect to glazing.

Manufactured using high-transparency polyester film, it delivers excellent optical clarity for a clear external view, while also helping to block up to 97% of infrared heat for improved interior comfort. Suitable for residential, commercial and hospitality applications, it offers a durable and elegant solution for windows, doors and glazed partitions.

Composition

High-clarity polyester (PET) film with functional coating, and durable scratch-resistant finish

Pattern Repeat Size

N/A

Roll Size

Various. See Technical Documents for details.

Lead Time

- 2-weeks (approx.) from Wednesday, subject to stock availability.
- Additional 1-week for Western Australia.
- Express delivery is available subject to a surcharge. Contact Baresque for details and pricing.

Care Instructions

Clean using a soft cloth or rubber squeegee with clean, warm water.

For more persistent soiling, use a mild neutral detergent diluted to 1–2% with water. Gently wipe the surface in a single direction, then rinse thoroughly with clean water to remove any residue.

Do not scrub back and forth, as this may damage the surface.

Do not dry-wipe, as this may cause fine scratches.

Avoid leaving dirt or debris on the surface, as this may accelerate wear. Regular cleaning is recommended to maintain appearance and performance.

Do not use ammonia-based cleaners, chlorine-based cleaners, organic solvents, or abrasive cleaning agents.

Do not apply stickers, tape, or labels to the surface, and avoid writing on the material. Prevent any actions that may scratch or damage the film.
