MIRROR 20 EX

CLEAS Mirror 20 EX is a half-mirror film offering one-way visibility with a reflective surface on one side and transparency on the other. Ideal for privacy and light control in various applications.

Description

CLEAS Mirror 20 EX provides enhanced privacy and solar control through its reflective half-mirror finish, allowing visibility in one direction while reducing views from the opposite side. Designed for applications where privacy, glare reduction and light management are required, it offers a practical solution for a range of interior and exterior glazing environments.

Manufactured using high-transparency polyester film, it delivers excellent optical clarity for a clear external view, while also helping to block up to 97% of infrared heat for improved interior comfort. Suitable for residential, commercial and hospitality applications, it provides a durable and functional solution for windows, façades and glazed partitions.

Composition

High-clarity polyester (PET) film with functional coating, and durable scratch-resistant finish

Pattern Repeat Size

N/A

Roll Size

Various. See Technical Documents for details.

Lead Time

- 2-weeks (approx.) from Wednesday, subject to stock availability.
- Additional 1-week for Western Australia.
- Express delivery is available subject to a surcharge. Contact Baresque for details and pricing.

Care Instructions

Clean using a soft cloth or rubber squeegee with clean, warm water.

For more persistent soiling, use a mild neutral detergent diluted to 1–2% with water. Gently wipe the surface in a single direction, then rinse thoroughly with clean water to remove any residue.

Do not scrub back and forth, as this may damage the surface.

Do not dry-wipe, as this may cause fine scratches.

Avoid leaving dirt or debris on the surface, as this may accelerate wear. Regular cleaning is recommended to maintain appearance and performance.

Do not use ammonia-based cleaners, chlorine-based cleaners, organic solvents, or abrasive cleaning agents.

Do not apply stickers, tape, or labels to the surface, and avoid writing on the material. Prevent any actions that may scratch or damage the film.
