

HEAT SHIELDING BRONZE

Wallcoverings » Architectural Film

Brand: **Sangetsu**

Collections: **Glass Film**

Applications: **Glass**

CLEAS Heat Shielding Bronze combines a warm bronze tint with solar control technology to reduce glare and heat gain while maintaining visibility and providing UV protection.

Description

CLEAS Heat Shielding Bronze combines effective solar control with a warm bronze tint, enhancing both the performance and appearance of glazed surfaces. It helps reduce glare and solar heat gain while maintaining outward visibility, creating more comfortable interior environments. The film also provides UV protection to help minimise fading of furnishings and interior finishes.

Manufactured using high-transparency polyester film, it delivers excellent optical clarity while helping to block up to 97% of infrared heat for improved thermal comfort. Suitable for residential, commercial and hospitality applications, it offers a durable and stylish solution for windows and glazed façades.

Composition

High-clarity polyester (PET) film with functional coating, and durable scratch-resistant finish

Pattern Repeat Size

Care Instructions

Clean using a soft cloth or rubber squeegee with clean, warm water.

For more persistent soiling, use a mild neutral detergent diluted to 1–2% with water. Gently wipe the surface in a single direction, then rinse thoroughly with clean water to remove any residue.

Do not scrub back and forth, as this may damage the surface.

Do not dry-wipe, as this may cause fine scratches.

Avoid leaving dirt or debris on the surface, as this may accelerate wear. Regular cleaning is recommended to maintain appearance and performance.

Do not use ammonia-based cleaners, chlorine-based cleaners, organic solvents, or abrasive cleaning agents.

Do not apply stickers, tape, or labels to the surface, and avoid writing on the material. Prevent any actions that may scratch or damage the film.

Warranty

2-year warranty. Visit baresque.com.au/warranty for complete details.
