CLEAS Unfade 90 provides UV protection to help reduce fading and damage to interiors, preserving furniture, flooring and displays while maintaining clear visibility.

Description

CLEAS Unfade 90 is designed to help protect interior spaces from the damaging effects of ultraviolet exposure, reducing fading and deterioration of furnishings, flooring and displays. Providing UV protection while maintaining clear visibility, it helps preserve the appearance and longevity of interior finishes without compromising natural light.

Manufactured using high-transparency polyester film, it delivers excellent optical clarity for a clear external view while helping to block up to 97% of infrared heat for improved interior comfort. Suitable for residential, commercial and hospitality applications, it offers a durable and practical solution for enhancing the performance of glazed surfaces.

Care Instructions

Clean using a soft cloth or rubber squeegee with clean, warm water.

For more persistent soiling, use a mild neutral detergent diluted to 1–2% with water. Gently wipe the surface in a single direction, then rinse thoroughly with clean water to remove any residue.

Do not scrub back and forth, as this may damage the surface.

Do not dry-wipe, as this may cause fine scratches.

Avoid leaving dirt or debris on the surface, as this may accelerate wear. Regular cleaning is recommended to maintain appearance and performance.

Do not use ammonia-based cleaners, chlorine-based cleaners, organic solvents, or abrasive cleaning agents.

Do not apply stickers, tape, or labels to the surface, and avoid writing on the material. Prevent any actions that may scratch or damage the film.

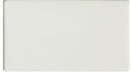

Warranty

2-year warranty. Visit baresque.com.au/warranty for complete details.
