

SHATTER RESISTANT CHIARO

Wallcoverings » Architectural Film

Brand: **Sangetsu**

Collections: **Glass Film**

Applications: **Glass**

CLEAS Shatter Resistant Chiaro is a transparent shatter-prevention film, preventing glass shards from scattering while maintaining clear visibility and reducing injury risks.

Description

CLEAS Shatter Resistant Chiaro films provide a transparent safety solution designed to help prevent glass shards from scattering upon impact while maintaining clear visibility and natural light. Developed to enhance the safety of existing glass surfaces, the clear film reinforces glazing without altering the appearance of windows, doors or partitions.

Manufactured using high-transparency polyester film, it offers excellent optical clarity while helping to block up to 97% of infrared heat for improved interior comfort. Ideal for residential, commercial and hospitality applications, CLEAS Shatter Resistant Chiaro films deliver discreet protection with enhanced glass performance.

Composition

High-clarity polyester (PET) film with functional coating, and durable scratch-resistant finish

Care Instructions

Clean using a soft cloth or rubber squeegee with clean, warm water.

For more persistent soiling, use a mild neutral detergent diluted to 1–2% with water. Gently wipe the surface in a single direction, then rinse thoroughly with clean water to remove any residue.

Do not scrub back and forth, as this may damage the surface.

Do not dry-wipe, as this may cause fine scratches.

Avoid leaving dirt or debris on the surface, as this may accelerate wear. Regular cleaning is recommended to maintain appearance and performance.

Do not use ammonia-based cleaners, chlorine-based cleaners, organic solvents, or abrasive cleaning agents.

Do not apply stickers, tape, or labels to the surface, and avoid writing on the material. Prevent any actions that may scratch or damage the film.

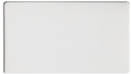

Warranty

2-year warranty. Visit baresque.com.au/warranty for complete details.
