Brand: **Sangetsu**

Collections: **Glass Film**

Applications: **Glass**

CLEAS Security Film is a high-impact resistant glass film designed to reinforce glazing, helping to deter intrusion by resisting glass breakage while providing enhanced safety, UV protection and clear visibility.

Description

CLEAS Security Film is designed to reinforce glass surfaces by providing high-impact resistance that helps deter intrusion and reduce the risk of injury from shattered glass. Helping to resist glass breakage while maintaining clear visibility, it enhances the safety and security of windows and glazed surfaces without compromising natural light.

Manufactured using high-transparency polyester film, it delivers excellent optical clarity for a clear external view while helping to block up to 97% of infrared heat for improved interior comfort. Suitable for residential, commercial and hospitality applications, CLEAS Security Film offers a durable and reliable solution for improving the safety, security and performance of glazed surfaces.

Composition

High-clarity polyester (PET) film with functional coating, and durable scratch-resistant finish

Pattern Repeat Size

Various. See Glass Film Product Specification Download for details

Roll Size

Various. See Glass Film Product Specification Download for details.

Dimensions

Available Widths: 96cm and 122cm

Lead Time

- 2-weeks (approx.) from Wednesday, subject to stock availability.
- Additional 1-week for Western Australia.
- Express delivery is available subject to a surcharge. Contact Baresque for details and pricing.

Care Instructions

Clean using a soft cloth or rubber squeegee with clean, warm water.

For more persistent soiling, use a mild neutral detergent diluted to 1–2% with water. Gently wipe the surface in a single direction, then rinse thoroughly with clean water to remove any residue.

Do not scrub back and forth, as this may damage the surface.

Do not dry-wipe, as this may cause fine scratches.

Avoid leaving dirt or debris on the surface, as this may accelerate wear. Regular cleaning is recommended to maintain appearance and performance.

Do not use ammonia-based cleaners, chlorine-based cleaners, organic solvents, or abrasive cleaning agents.

Do not apply stickers, tape, or labels to the surface, and avoid writing on the material. Prevent any actions that may scratch or damage the film.

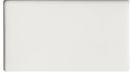

Warranty

2-year warranty. Visit baresque.com.au/warranty for complete details.
