MUIR

Fabrics » Vinyl and Faux Leather Fabrics

A biodegradable faux leather upholstery vinyl that combines classic leather-inspired appeal with exceptional commercial performance. Durable, easy to maintain, and environmentally conscious, Muir is designed for high-traffic interior applications.

✓ Bleach Cleanable

✓ Anti-Microbial

✓ Hyphyn Biodegradable Vinyl

Description

Bring timeless style and dependable performance to commercial interiors with Muir. This high-performance faux leather upholstery fabric offers a sophisticated leather-look aesthetic that complements a wide range of interior settings, from hospitality and workplace environments to healthcare, education, and public spaces. Its versatile appearance and durable construction make it an ideal choice for projects that require both visual appeal and long-lasting functionality.

Constructed from 100% biodegradable vinyl with a 100% biodegradable polyester backing, Muir is finished with a soil and stain resistant topcoat for enhanced durability and simplified maintenance. Engineered to withstand 250,000 double rubs, it delivers exceptional wear resistance for demanding commercial upholstery applications. Antibacterial and sulfide stain resistant, Muir supports cleaner and healthier environments while maintaining its appearance over time. PFAS-free, phthalate-free, formaldehyde-free, and low VOC, it is designed to biodegrade by more than 90% in landfill conditions within two years, offering a sustainable alternative to traditional performance vinyl upholstery.

Composition

100% hyphyn™ biodegradable vinyl front on 100% biodegradable polyester back with soil & stain resistant topcoat (702 g/m²)

Environmental Info

This product is manufactured using materials that are free from PFAS, formaldehyde, and phthalates, and is certified as low VOC. It complies with a range of recognised international standards and regulatory requirements, including REACH, RoHS, California AB 2998, Prop 65, and Healthier Hospitals criteria.

The product has also been assessed for end-of-life environmental performance. Testing in accordance with ASTM D5511 indicates it can biodegrade by more than 90% in landfill conditions within two years. Additional testing has shown no detectable chemicals of concern in post-degradation soil and no negative impact on soil quality under ASTM E1963.

Care Instructions

Use cloth with any of the following in preferred order of use:

1: Clear warm water

2: Mild solution of liquid soap and warm water

Remove any soap residue with a clean, damp cloth. Wipe dry with a clean cloth.

For more difficult stains, spot clean with a 70% solution of isopropyl alcohol (rubbing alcohol) and water and wipe. Rinse with fresh water and wipe dry.

For healthcare-related stains, dampen a cloth with a solution of household bleach (10% bleach / 90% water). Rub gently. Rinse thoroughly with a water-dampened cloth to remove bleach concentration.

Do not use solvent-based or concentrated abrasive cleaning agents, lacquer thinners, or nail polish remover, as these may cause discolouration over a period of time.

Always test in an inconspicuous area first.

If care instructions don't deliver the expected results, cease cleaning method immediately and contact Baresque for assistance.

Warranty

2-year warranty. Visit baresque.com.au/warranty for complete details.
