Description

Alberi is a digitally printed mural wallcovering inspired by the quiet beauty of a forest landscape. Layered tree silhouettes recede into the distance, creating a sense of depth, scale, and atmosphere across the wall surface. The subtle tonal transitions and softened forms evoke a mist-covered horizon, bringing a calming, nature-inspired aesthetic to hospitality, workplace, residential, healthcare, and public environments. Alberi reflects a contemporary interpretation of Italian artistry designed for modern interiors.

Constructed as a Type II 20 oz. vinyl mural wallcovering, Alberi combines large-scale visual impact with commercial-grade durability. The four-panel mural format allows the design to unfold seamlessly across feature walls and expansive interior surfaces, creating an immersive architectural statement. Manufactured in the USA and backed with osnaburg, Alberi is free from phthalates, formaldehyde, heavy metals, and PBDEs, while meeting low VOC indoor air quality standards. The result is a durable, low-maintenance wallcovering solution suited to a wide range of commercial and residential applications.

Composition

Type II vinyl wallcovering with osnaburg backing (452 g/m²)

Environmental Info

Developed with a focus on healthier interiors and responsible manufacturing, this Type II vinyl wallcovering offers a balance of performance, durability and environmental transparency. The material is free from phthalates, formaldehyde, heavy metals (RoHS) and PBDEs (brominated flame retardants), while its low VOC formulation supports improved indoor air quality in commercial environments.

It is recyclable and supported by both a Health Product Declaration (HPD) and Environmental Product Declaration (EPD), providing transparency around material ingredients and environmental impact. Manufactured under a comprehensive materials recovery and reuse program, the product helps reduce production waste and promote more efficient use of resources throughout the manufacturing process.
