Description

Ghiacciaio is a digitally printed mural wallcovering that captures the beauty of a panoramic landscape through painterly textures and subtle tonal transitions. Layers of distant mountains, reflective water, and atmospheric detail create a sense of depth and openness, drawing the eye across the composition. Ghiacciaio reinterprets landscape artistry for modern interiors, offering a sophisticated feature wall solution for hospitality, workplace, residential, healthcare, and public environments.

Constructed as a Type II 20 oz. vinyl mural wallcovering, Ghiacciaio combines large-scale visual impact with the durability required for commercial applications. The four-panel mural format allows the scenic design to unfold seamlessly across expansive wall surfaces, creating an immersive architectural statement. Manufactured in the USA and backed with osnaburg, Ghiacciaio is free from phthalates, formaldehyde, heavy metals, and PBDEs, while meeting low VOC indoor air quality standards. The result is a durable, low-maintenance wallcovering solution designed for a wide range of contemporary interior spaces.

Composition

Type II vinyl wallcovering with osnaburg backing (452 g/m²)

Environmental Info

Developed with a focus on healthier interiors and responsible manufacturing, this Type II vinyl wallcovering offers a balance of performance, durability and environmental transparency. The material is free from phthalates, formaldehyde, heavy metals (RoHS) and PBDEs (brominated flame retardants), while its low VOC formulation supports improved indoor air quality in commercial environments.

It is recyclable and supported by both a Health Product Declaration (HPD) and Environmental Product Declaration (EPD), providing transparency around material ingredients and environmental impact. Manufactured under a comprehensive materials recovery and reuse program, the product helps reduce production waste and promote more efficient use of resources throughout the manufacturing process.
