Description

Pietra Marble is a digitally printed mural wallcovering that captures the organic character of natural quartz and marble-inspired surfaces. Defined by its flowing vertical striations and subtle tonal transitions, the design introduces movement and depth while naturally drawing the eye upward to enhance the perception of space. Pietra reinterprets the beauty of natural stone through a contemporary Italian design perspective, making it an ideal feature wall solution for hospitality, workplace, residential, retail, and public environments.

Constructed as a Type II 20 oz. vinyl mural wallcovering, Pietra combines sophisticated aesthetics with the durability required for commercial interiors. The four-panel mural format allows the large-scale stone-inspired design to flow seamlessly across expansive wall surfaces, creating a cohesive architectural statement. Manufactured in the USA and backed with osnaburg, Pietra is free from phthalates, formaldehyde, heavy metals, and PBDEs, while meeting low VOC indoor air quality standards. The result is a durable, low-maintenance wallcovering solution that balances natural elegance with long-lasting performance.

Composition

Type II vinyl wallcovering with osnaburg backing (452 g/m²)

Environmental Info

Developed with a focus on healthier interiors and responsible manufacturing, this Type II vinyl wallcovering offers a balance of performance, durability and environmental transparency. The material is free from phthalates, formaldehyde, heavy metals (RoHS) and PBDEs (brominated flame retardants), while its low VOC formulation supports improved indoor air quality in commercial environments.

It is recyclable and supported by both a Health Product Declaration (HPD) and Environmental Product Declaration (EPD), providing transparency around material ingredients and environmental impact. Manufactured under a comprehensive materials recovery and reuse program, the product helps reduce production waste and promote more efficient use of resources throughout the manufacturing process.
