Most liquid spills simply blot off the surface with a dry towel. If a stains remains, follow these simple steps:

1. Remove excess soil, and apply the soap mixture on the stained area

2. Allow solution to remain on stain for 1 minute

3. Blot up the stain with a dry, clean towel, rinse any remaining soap and blot the area again

Repeat these steps if a spot still remains. If agitation is necessary, spray the stained area and work the stain using a soft brush or edge of spoon from outside of spot toward the middle. Blot and rinse to remove any soap.
