Care Instructions

Basic Maintenance such as removal of dust and stains will keep your upholstery looking good and performing well for years. Any stains

should be addressed promptly since, the longer the stain remains, the more difficult it will be to remove and untreated stains may

become permanent.

If the stain is wet, gently blot away any extra fluid that might remain on the fabric.

If a stain still remains and additional cleaning is required, a cleaner can be applied lightly to a soft cloth and gently worked into the stained area.

Use clean water to rinse away any remaining cleaning solution.

If the stain is dry, a soft bristle brush can be used to gently remove any remaining accumulated matter. Any loose material can then be vacuumed away and, if a stain remains, cleaning can then be performed as described above.

If a stain cannot be removed by these methods, a solution of 10 parts water to 1 part bleach can be used.

Never use full strength bleach.

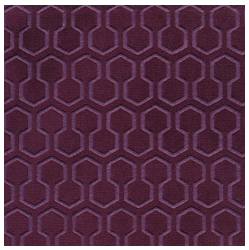

Warranty

2-year warranty. Visit **baresque.com.au/warranty** for complete details.
