Suspended box-shaped baffles are an innovative replacement to a mineral fibre lay system. Box Baffles Uniformed High are easy to assemble and install.

Description

Zintra Baffles are prefabricated, ceiling mounted systems that showcase Zintra's flexible characteristics. Zintra Acoustic Baffles are an innovative replacement to a mineral fibre lay system. Easy to assemble, easy to install and available in a large array of designs, baffles are ideally suited to large noisy spaces in educational institutions, shopping centres, restaurants, and airports.

Suspended box-shaped baffles hung in perfectly spaced rows create these high performing baffles. The box shape feature not only looks more substantial, but also increases the NRC rating by capturing sound within. Select the same shaped baffles or mix them up for added dimension.

Available in uniformed (high and low), random or mixed combinations.
