| Description | <p>Where architecture meets acoustic intent, Zintra Baffle Systems bring sculptural design to ceiling and wall applications. Flowing seamlessly from surface to structure, Zintra baffle designs transform noise control into a design feature—delivering bold, 3D forms that play with light, depth, and shadow.</p> <p>Zintra Baffles are a prefabricated system that offer an innovative replacement to traditional mineral fibre lay systems. Available in full and Lite variations, each design includes 32 or 16 prefabricated baffles and ships with five 25mm notched aluminium tubes in a sleek black powder coat finish—also available in 12 vivid powder coat colors to complement any interior palette.</p> <p>Zintra Baffles aren't just sound absorbers—they're architectural statements. Suspend them from ceilings, mount to walls, or create ceiling-to-wall transitions for continuous visual impact.</p> <p><b>Straight</b> is the essence of minimalism. With uninterrupted baffle lengths and no decorative cut-outs, this design delivers a clean, refined aesthetic—ideal for spaces seeking structure, rhythm, and clarity.</p> <p>With superior NRC performance, Zintra's vertical baffles present increased surface area to the room enhancing sound absorption. Combined with ready-to-install ease and a wide selection of designs, finishes and print options. Zintra Baffle systems deliver flexible acoustic solutions ideal for large noisy spaces like education settings, commercial offices, hospitality venues, or public zones where atmosphere and performance must work in harmony.</p> <p>Available in 6 designs.</p> <p>Cove   Knotty   Live Edge   Stacked   Straight   Yin-Yang</p> <p>All designs also available in a Lite version.</p> |
