BOX BAFFLES UNIFORM WIDE

Uniform Wide creates a confident linear ceiling design. With 12 baffles per system and at 4.3" (110mm) it offers clarity and structure for commercial spaces.

Description

Zintra Box Baffles Systems are prefabricated, ceiling-mounted systems that bring rhythm, dimension, and high-performance acoustics to any space. Suspended in perfectly spaced rows, the box-shaped design not only looks substantial but also improves sound absorption, capturing noise within and increasing the NRC rating. Lightweight, modular, and scalable, these systems are easy to assemble, easy to install, and a visually striking alternative to traditional mineral fibre ceilings.

Uniform Wide Box Baffle Systems

Balances depth and density with 12 baffles per system at 4.3" (110mm). Offering a clear, linear aesthetic, Wide enhances acoustic control while maintaining an architectural rhythm that feels confident yet refined.

Available in two sizes, 39" (1000mm) w x 94.5" (2400mm) d and 93" (2362mm) w x 94.5" (2400mm) d, Uniform Wide is ideal for projects that call for subtle impact with strong acoustic performance.

Design Options

Choose from uniform or mixed Box Baffle Systems to suit your design vision. Uniform Slim, Wide, Span, and Grand offer clean, linear profiles, while Freeform layers Slim, Wide, and Span for subtle variation. Fusion combines all four sizes for bold, architectural statements.

With a wide array of designs, Zintra Box Baffles are ideal for large, noisy spaces such as educational institutions, shopping centres, restaurants, and airports, where performance meets aesthetic appeal.
