BOX BAFFLES FUSION

Fusion combines Uniform Grand, Uniform Slim, Uniform Span and Uniform Wide baffles into one 10-baffle system. A bold, layered ceiling design.

Description

Zintra Box Baffles Systems are prefabricated, ceiling-mounted systems that bring rhythm, dimension, and high-performance acoustics to any space. Suspended in perfectly spaced rows, the box-shaped design not only looks substantial but also improves sound absorption, capturing noise within and increasing the NRC rating. Lightweight, modular, and scalable, these systems are easy to assemble, easy to install, and a visually striking alternative to traditional mineral fibre ceilings.

Fusion Box Baffle Systems

Combines Uniform Slim, Uniform Wide, Uniform Grand, and Uniform Span in one system of 10 baffles, reaching depths of up to 6.7" (170mm). This mix creates bold, layered ceiling compositions that balance rhythm, scale, and acoustic performance in one dynamic solution.

Available in two sizes, 39" (1000mm) w x 94.5" (2400mm) d and 93" (2362mm) w x 94.5" (2400mm) d, Slim is ideal for projects that call for subtle impact with strong acoustic performance.

Design Options

Choose from uniform or mixed Box Baffle Systems to suit your design vision. Uniform Slim, Wide, Span, and Grand offer clean, linear profiles, while Freeform layers Slim, Wide, and Span for subtle variation. Fusion combines all four sizes for bold, architectural statements.

With a wide array of designs, Zintra Box Baffles are ideal for large, noisy spaces such as educational institutions, shopping centres, restaurants, and airports, where performance meets aesthetic appeal.
