Box Baffles Span Set 6.7" (170mm), 6 or 3 baffles. Delivering deep architectural rhythm and strong acoustic absorption. PET

Description

Zintra Box Baffle Sets are prefabricated, ceiling-mounted systems that bring rhythm, dimension, and high-performance acoustics to any space. The box-shaped design not only looks substantial but also improves sound absorption, capturing noise within and increasing the NRC rating. Lightweight, modular, and scalable, they are a visually striking alternative to traditional mineral fibre ceilings.

With Box Baffle Sets, you get Zintra's acoustic performance and design impact, minus the hardware. This opens up the freedom to experiment, reimagine, and tailor ceiling layouts that reflect your unique style.

Box Baffles Span Set at 6.7" (170mm) provides the deepest profile. Its strong architectural form captures sound effectively while making a striking design statement across larger spaces.

Available in two sizes, 39" (1000mm) w x 94.5" (2400mm) d and 93" (2362mm) w x 94.5" (2400mm) d. Each set comes with either 6 or 3 baffles (depending on size)

With a wide array of designs, Zintra Box Baffles are ideal for large, noisy spaces such as educational institutions, shopping centres, restaurants, and airports, where performance meets aesthetic appeal.
