BOX BAFFLES GRAND

Box Baffles Grand Set at 5.5" (140mm), 6 or 3 baffles. Creating bold ceiling lines with fewer elements. Designed for flexibility and custom install.

Description

Zintra Box Baffle Sets are prefabricated, ceiling-mounted systems that bring rhythm, dimension, and high-performance acoustics to any space. The box-shaped design not only looks substantial but also improves sound absorption, capturing noise within and increasing the NRC rating. Lightweight, modular, and scalable, they are a visually striking alternative to traditional mineral fibre ceilings.

With Box Baffle Sets, you get Zintra's acoustic performance and design impact, minus the hardware. This opens up the freedom to experiment, reimagine, and tailor ceiling layouts that reflect your unique style.

Box Baffles Slim Set features the shallowest depth at 3.5" (90mm), yet delivers maximum visual rhythm with a light, elegant ceiling line that enhances acoustic performance without overwhelming the space. Ideal for projects requiring subtle impact with high coverage, Slim offers a clean, modern solution that balances scale, sound control, and design efficiency.

Available in two sizes, 39" (1000mm) w x 94.5" (2400mm) d and 93" (2362mm) w x 94.5" (2400mm) d. Each set comes with either 6 or 3 baffles (depending on size)

With a wide array of designs, Zintra Box Baffles are ideal for large, noisy spaces such as educational institutions, shopping centres, restaurants, and airports, where performance meets aesthetic appeal.
